

# !! WARNING!! TRAFFIC ALERT

**TO:** San Fernando Valley residents  
CSUN students, faculty, workers, alumni  
Mayor Garcetti  
**FROM:** State Senator Bob Hertzberg, for the San Fernando Valley  
**RE:** Time is running out...  
and the traffic will continue to pile up!

CSUN is the largest CSU campus in the state, and has nearly 50,000 students, workers and faculty. **They make 200,000 car trips to and from campus EVERY WEEK!** Many of CSUN's 320,000 alumni and campus neighbors deal with problems brought about by too many cars, and **no working transit corridor.**

On June 23rd, the Los Angeles County Metropolitan Transportation Authority (Metro) Board will consider placing a sales tax increase on the November ballot for LA County. **The Metro plan will govern all of LA for 50 years!**

Metro's draft plan has a number of good projects benefiting the Valley. But we have not been asleep at the switch... a coalition of Valley leaders, including neighborhood councils, business leaders, students, educators, and elected officials, came together to call for improvements to the plan, including the traffic surrounding CSUN - but we have been ignored.

**Unfortunately, there is nothing in Metro's plan to significantly take care of CSUN and its neighbors. A \$120 billion plan to cover the next 50 years without helping CSUN and its neighbors is nuts!**

## DON'T WANT TRAFFIC? DON'T WANT A PLAN THAT IGNORES US?

*Then Call 818-901-5588  
and demand that the  
Mayor make good on promises  
to address the traffic needs  
of CSUN and the Valley.*
