

Letter of Consent for the proposed development

The Legalization of the Existing 2nd dwelling Structure.

October 29, 2015

Dear Neighbor Happy Halloween,

My name is Arutyun (Harry) Adamian. My wife Christine and I are your neighbors and the owners of the property located at: **6639 Norwich Ave.**

Please review the attached plot and floor plans. We would like to do the following on our property and we need your consent.

We would like to legalize the 2nd dwelling unit, (a portion of it was my garage), at the rear of my property. My father and very ill mother reside in this unit. They are no longer “spring chickens” and we want to keep them at home with us as we love them dearly. We thought we were doing the correct building procedure but the contractor did not provide us with permits and now we are struggling to make this legal.

Please allow us to make these changes. **They will not affect your property**, the quality of your life style **or** the quality of our lives in our neighborhood. Further, we are providing off street parking as required by building and safety.

As this undertaking is both time consuming and costly, and in the spirit of good neighbor relations I am contacting all my neighbors and enlisting your

support for this development. Further, should you have a development proposal that requires neighborhood support and that is subject to approval by the jurisdictional agencies I would be more than happy to acquiesce to it.

ACKNOWLEDGEMENT/ACCEPTANCE

I (we), _____, are the legal owner(s) of the property located adjacent to 6639 Norwich Ave, Los Angeles, CA 91405, and I (we) are aware of the development proposal as shown on the attached plot and floor plan for Christine and Arutyun (Harry) Adamain. I have no objection to granting the proposed development.

Signature _____ date _____

Thank you very much for your support & Happy Halloween!

Harry and Christine ADAMIAN,

Cell: (818) 428-5426
