Van Nuys Neighborhood Council
Website Expense Proposal

Funding request: $104

Plan: Pay the monthly fee for a Squarespace website [$26/mo] for 4 months through June 30, for a total of $104, in order to test the ability of the VNNC board members to successfully duplicate the current website, including all of the current content. The new website would be built off-line, and would not affect the current website; nor would it be publicly available or viewable.

If the project is not successful or proves too difficult, the Squarespace account would be cancelled, the current website would remain in place, and the new plan would be to have current members of the board simply keep up with editing and posting to the current site without the help of Moore Business Results.

Reasoning: Squarespace offers a very simple-to-edit platform that can be easily updated and maintained by more members of the VNNC Board than can assist with the current website. This is important in order to share the burden of the work, as well as ensure that future Board Members can easily manage the site without needing to rely on people with more advanced webmaster experience. Additionally, Squarespace offers dozens of beautiful and modern templates that can easily be changed at the push of a button, negating the need to pay for website redesign.

Deadline: The new website will be finished or abandoned by June 30, 2020. If successfully completed, the Squarespace account can then be switched to an annual account on July 1, at a cost of $216/year [$18/month].

Step 1:
Preview

Step 2:
See the template Home Page
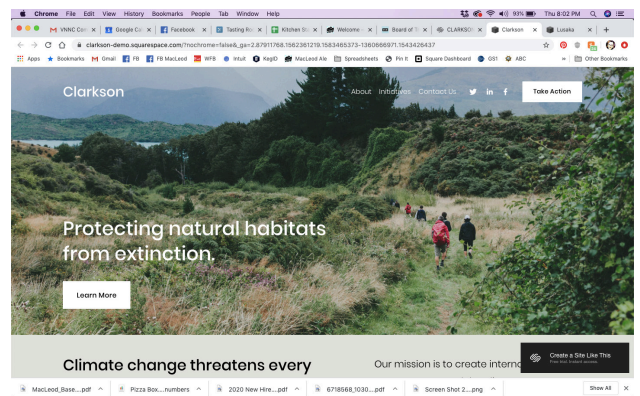

Step 3:
Click around to explore [I clicked "Initiatives"]. Notice the device icons: All Squarespace templates have dynamic formatting, meaning they automatically reconfigure to fit the device such as computer screen, phone, tablet.

Step 4:
Continue to review template for suitability. Each template comes with pages that can be easily formatted for photos, blogs, rosters, calendars, forms such as email list signups etc. Any kind of web page you can imagine is easily created.
